Title

Subtitle

```python
for i in range(5):
    print("Hello world!")
```

```
Hello world!
Hello world!
Hello world!
Hello world!
Hello world!
```
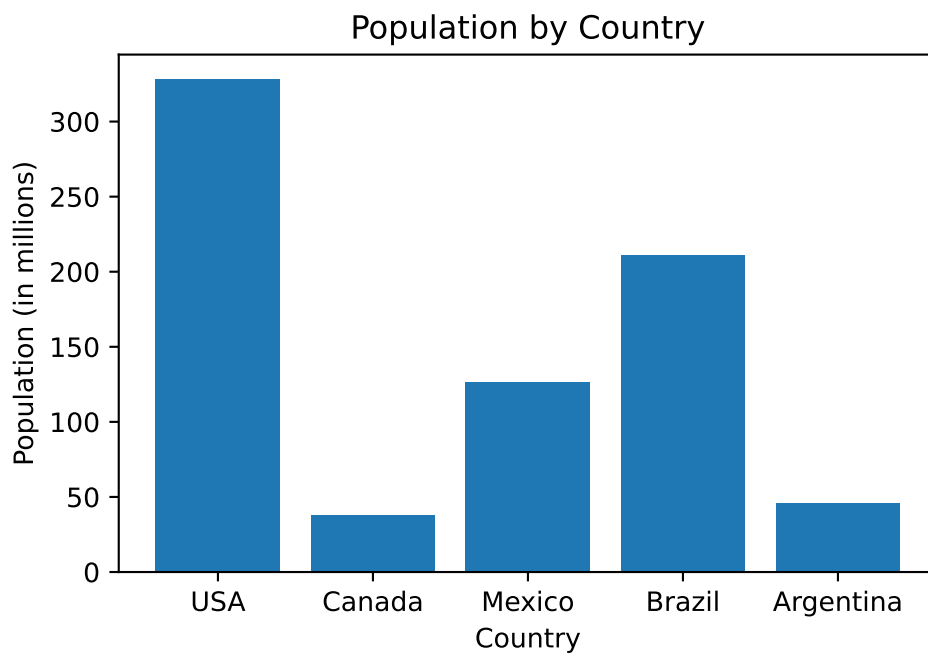

Another subtitle

```python
import matplotlib.pyplot as plt

#Data
countries = ['USA', 'Canada', 'Mexico', 'Brazil', 'Argentina']
population = [328.2, 37.6, 126.2, 211.0, 45.5] #in millions

#Create bar chart
plt.bar(countries, population)

#Customize chart
plt.title('Population by Country')
plt.xlabel('Country')
plt.ylabel('Population (in millions)')

#Display chart
plt.show()
```

A third subtitle

Great moments are born from great opportunities,
